5711 Industry Lane, # 29
Frederick, MD 21704

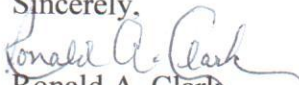

Dear Robert,

Thank you for an outstanding job completed on my residence. I could not be more pleased with the work your staff did on my home. You sent a professional work crew to undertake some major renovations and repairs on my home. Your total crew was professional, efficient, hard working, and followed through on every facet on my home. The process you used to assess the work that needed to be completed was detailed and of the highest standard. You provided a detailed contract outlining the work that had to be completed. When I called you prior to signing the contract you provided appropriate interpretation of the work that needed to be completed. Your crew followed through on every detail.

Throughout the period while the work was being completed your area supervisor, (Ron), was regularly available to inspect and approve the progress of the work. I appreciated the attention to detail and the monitoring of the project throughout the time your staff worked on the project. I do want to say that your on site supervisor Jose Vasquez did an outstanding job working and supervising every part of the project. I feel very fortunate to have had him on the job everyday to work and supervise the project. He had an excellent crew working with him. Juan Martinez, Edwin Martinez and Carlos Peres worked very efficiently and did not waste any time on the project. Jose's crew worked as a seamless flow and did not seem to require much supervision. It was a great team to have on the project. As a business man myself I want to say that you are fortunate to have such a professional team available to you.

Thank you again for the outstanding work that you and your team provided. If you have anyone who wants a reference about your organization and the quality of work that you provide, I would be very happy to provide it.

Sincerely,

Ronald A. Clark
